DBMS MINI - PROJECT
USER REQUIREMENT SPECIFICATIONS

1. **User Registration and Profiles:**
   - **User Registration**: Users should be able to create accounts with a unique username and password.
   - **Profile Information**: Users should be able to fill in their profiles with personal details, including name, contact information, cultural interests, languages spoken, and preferred modes of cultural exchange (e.g., workshops, homestays, festivals).
   - **Profile Updates**: Users should have the ability to update their profile information at any time.

2. **Destination Selection:**
   - **Search Functionality**: Users should be able to search for destinations based on various criteria, including cultural heritage, traditions, and location.
   - **Destination Information**: The database should store detailed information about each destination, including cultural events, festivals, and local communities open to cultural exchanges.

3. **Cultural Immersion Opportunities:**
   - **Activity Suggestions**: The application should suggest cultural activities such as cooking classes, language exchange programs, traditional music and dance workshops, and homestays based on the user's profile information and interests.
   - **Filtering Options**: Users should be able to filter these activities based on their cultural interests, language proficiency, and location.

4. **Local Guides and Ambassadors:**
   - **Connection**: The system should facilitate the connection between travelers and local guides or cultural ambassadors.
   - **Reviews and Ratings**: Users should be able to read reviews and ratings of local guides and ambassadors.

5. **Language Learning Resources:**
   - **Resource Access**: The application should provide access to language learning resources and courses tailored to the user's selected destination.
   - **Practice Tools**: Users should be able to practice essential phrases and cultural etiquette relevant to their chosen destination.

6. **Cultural Events Calendar:**
   - **Event Listings**: The database should maintain a calendar of cultural events and festivals in various destinations.
   - **Itinerary Integration**: Users should have the option to add events to their itineraries and receive notifications about upcoming events.

7. **Cultural Etiquette and Tips:**
   - **Information Access**: The system should provide access to cultural etiquette guides and tips to help users interact respectfully with local communities.
   - **Content Updates**: Ensure that the cultural etiquette information is up-to-date and relevant to each destination.

8. **Community Reviews and Experiences:**
   - **User Reviews**: Users should be able to share their cultural exchange experiences and provide feedback on the cultural activities they participated in.
   - **Reviews Visibility**: Make user reviews and ratings visible to other travelers to assist them in making informed decisions.
